

# Christopher Carlson

Full Stack Engineer

## Profile

Through his attendance at the Northwestern Coding Boot Camp, Chris has spent the past months diving deep into Full Stack Web Development using HTML5, CSS3, and JavaScript. Having recently moved out of the Music Education and Music Performance fields, Chris brings with him many skills including: an excellent sense of time-management and preparation, the flexibility necessary to adapt to unforeseen problems in any classroom or workplace, and the drive to self-motivate and remain a life-long learner.

## Employment History

### Overnight Counselor at West Chester University of Pennsylvania, West Chester, PA
